Dear Sir,

Question:

1. The test report is not clear as to whether the device was tested in three orthogonal planes as per ANSI C63.4-2003 paragraph 13.1.4.1. Please explain.

**Answer:**

**Please see the page 10 and section 4.5 of the test report: W78LKL2030\_TestRpt\_Revised.pdf.**

2. Once we have completed our review of this application we will up load all of the files to the FCC Website including the confidential ones and we will stop before we issue the Certification and send you the TC # so that you can view the files as they will appear on the FCC website before they become public. After you have checked them out you are to send us an email indicating that they are OKAY or telling us what is wrong. After you have confirmed everything is correct then we will issue the Certification.

**Answer:**

**We are not request for confidentiality.**
